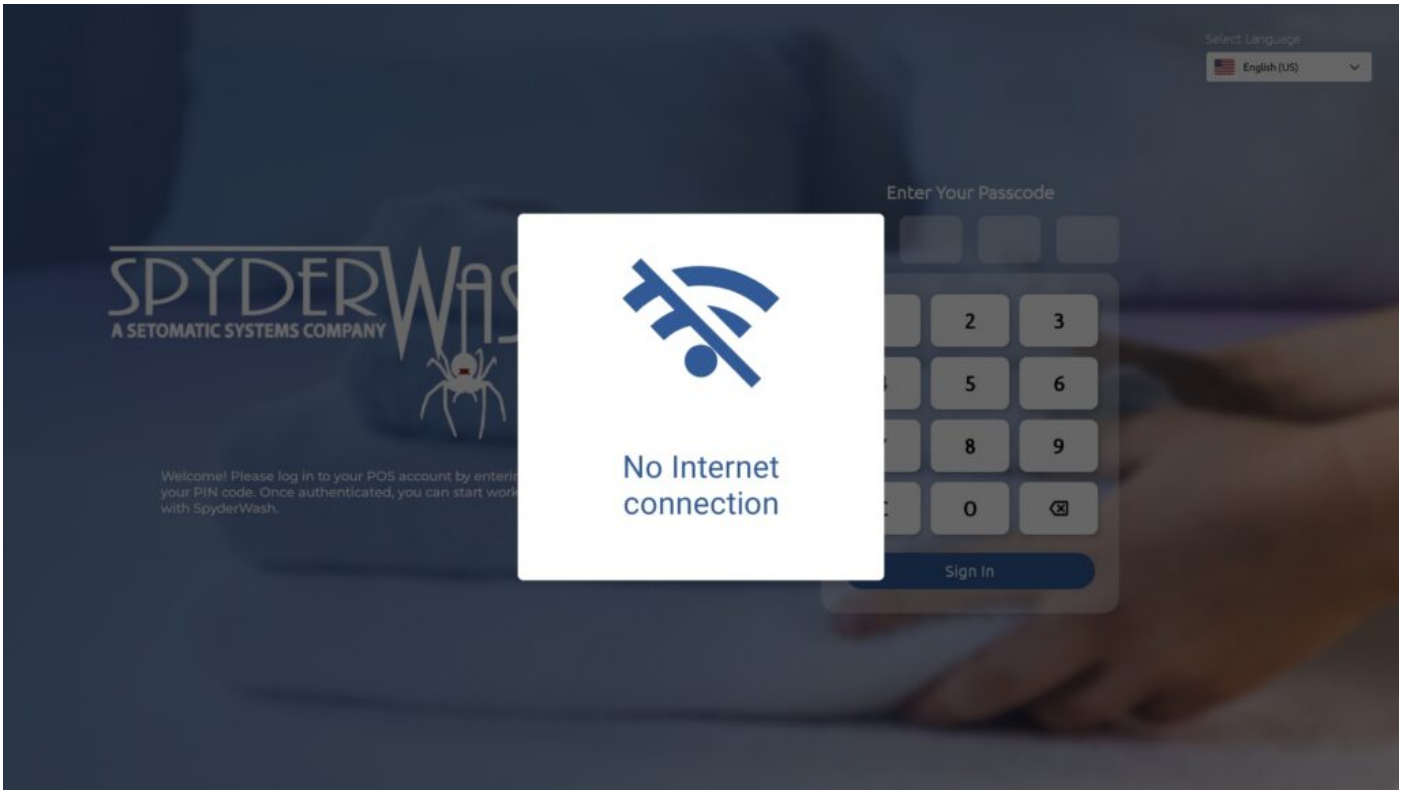
Connect to the Internet

POS Manual · https://spyderwash.info/help/pos-guide/

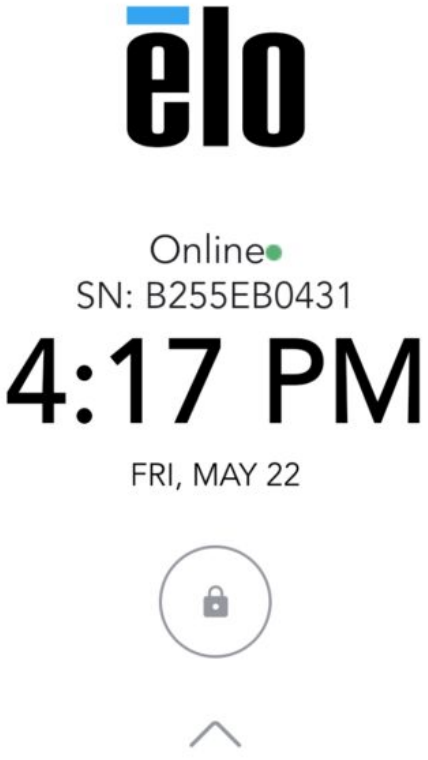
The SpyderWash POS System requires an internet connection via Ethernet or Wi-Fi. To connect to Wi-Fi, follow the instructions below to access the Network Settings menu. Please note that the Home and Power buttons are located behind the Employee-Facing Display, near the Barcode Scanner.



"No Internet Connection" will appear if both Wi-Fi **and** Ethernet are connected simultaneously!

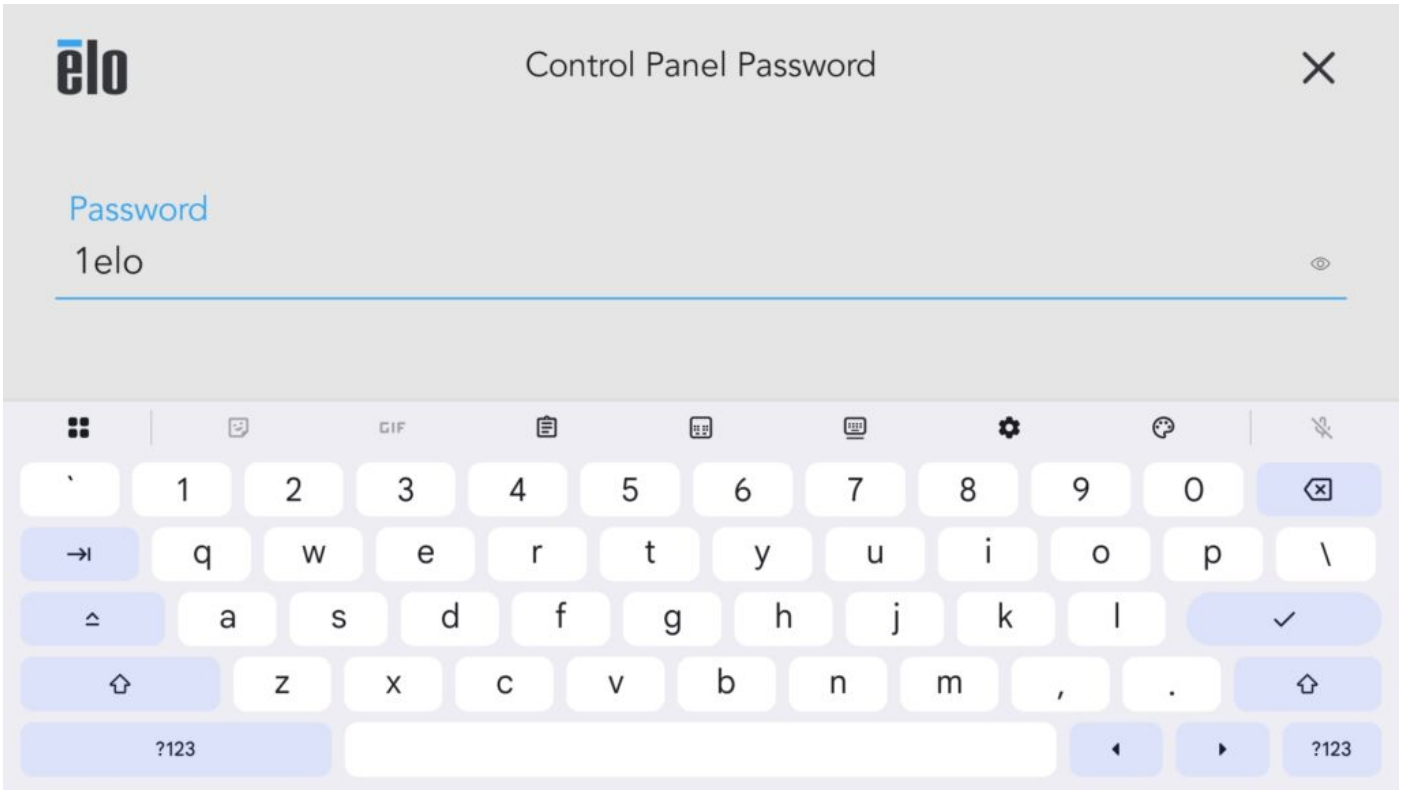
Press and hold the Home button, then

press the Power button.

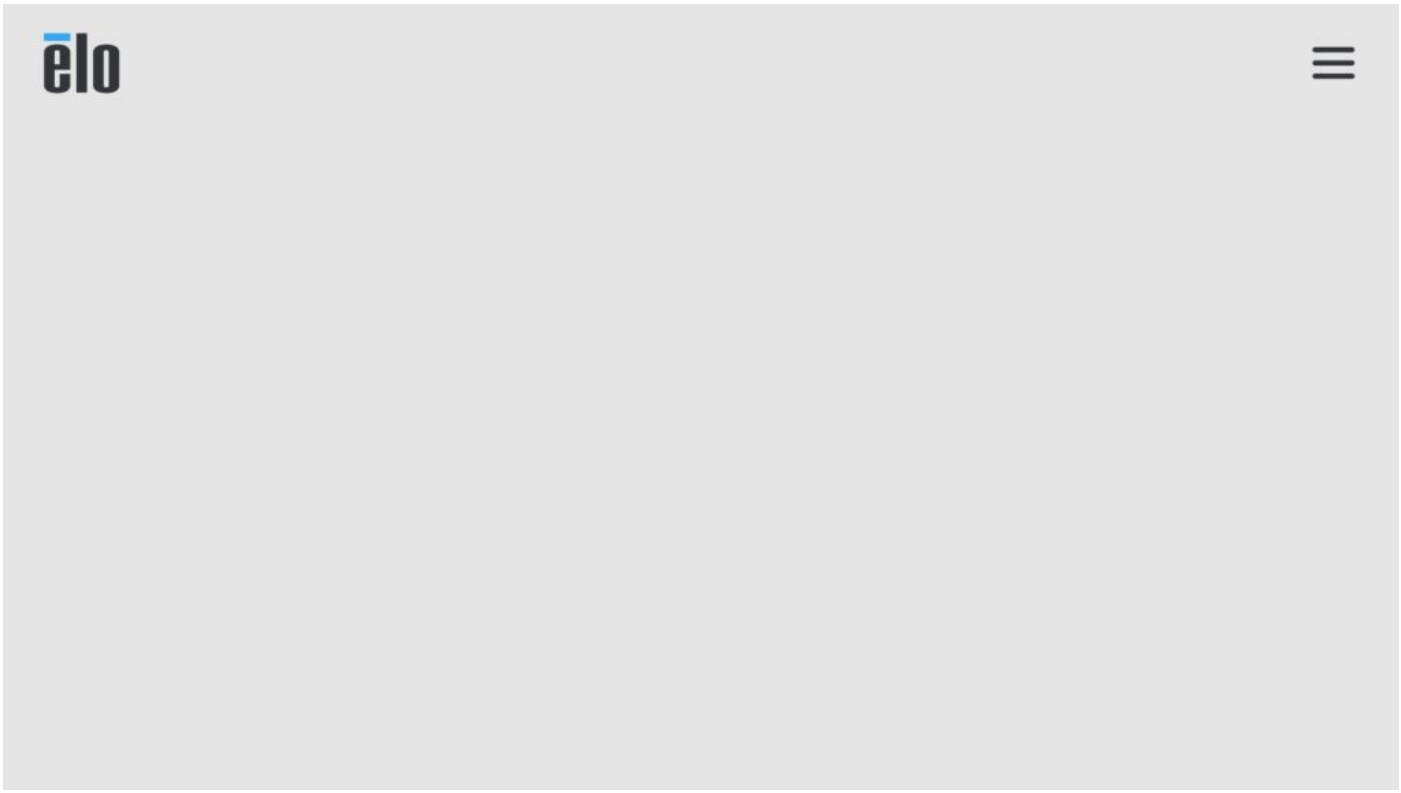


Swipe up on the screen to access the

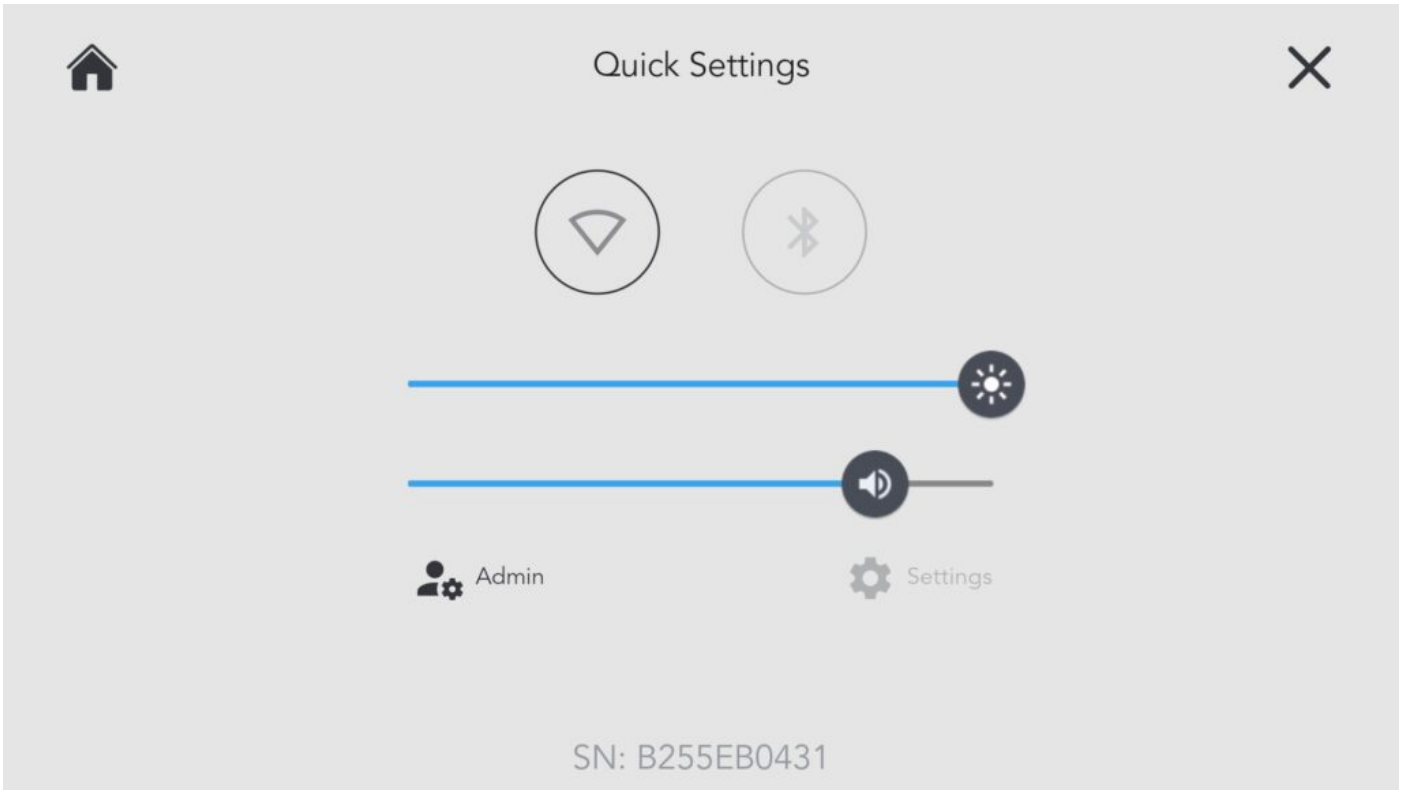
Device Control Panel.



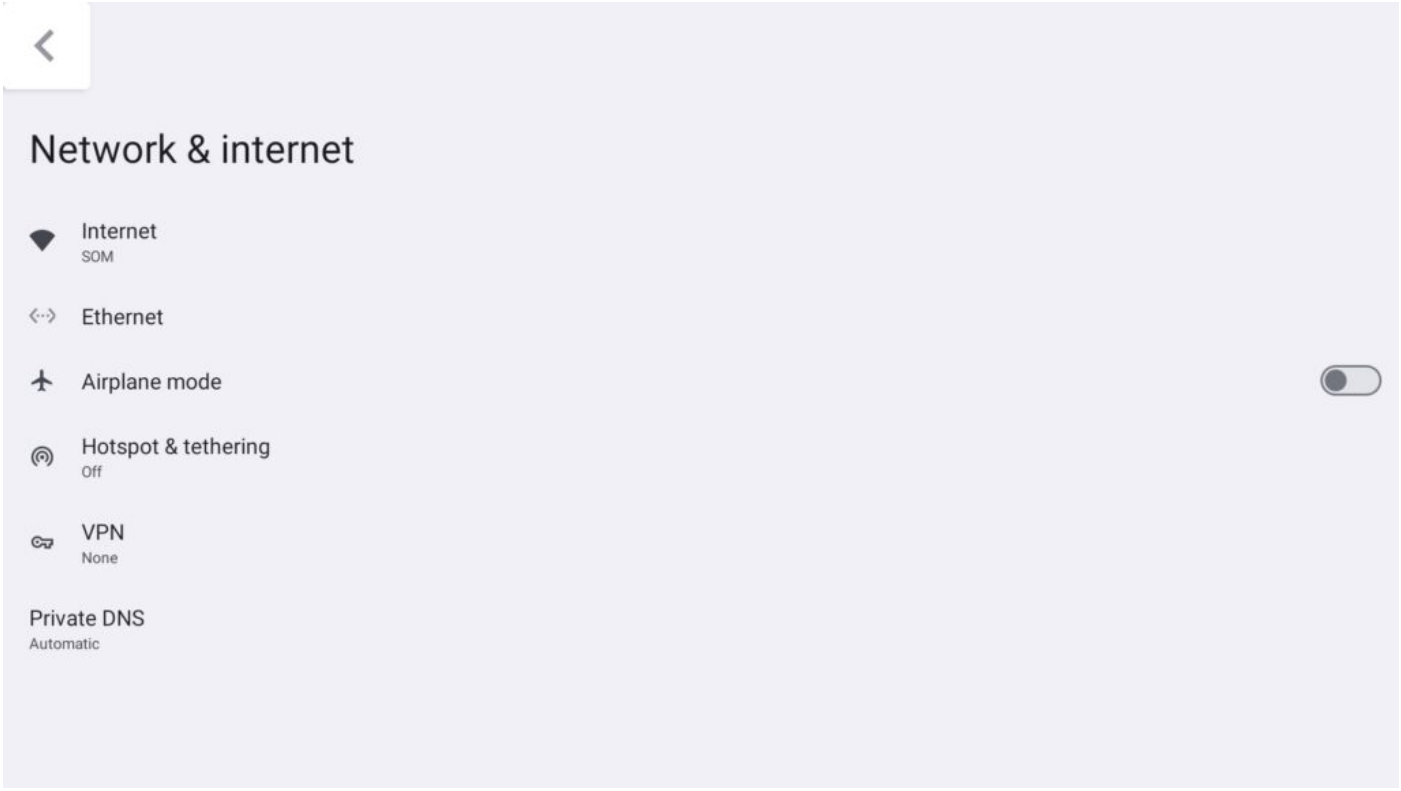
Enter the password: **1elo**



Tap the hamburger menu (three horizontal lines) in the upper-right corner.



Press and hold the Wi-Fi symbol.



Select "Internet" then choose your Wi-Fi network from the list.
