Reports

Portal Manual · https://spyderwash.info/help/reports/

You can access the Reports dropdown menu from the Operator Portal.

All revenue reports reflect gross income.

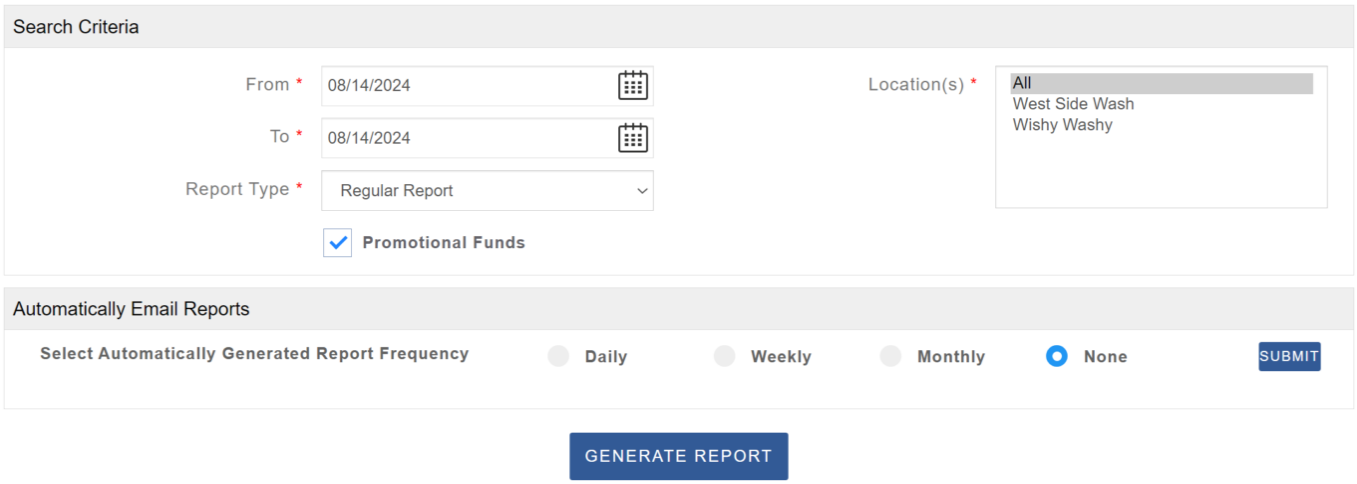

Revenue By Location

View revenue broken down by location to compare performance across all of your registered sites.

To access the Revenue By Location report, click the **Reports** tab and select **Revenue By Location**.

Enable Automatic Email Reports to have the report sent directly to your inbox, keeping you up to date without requiring you to log in.

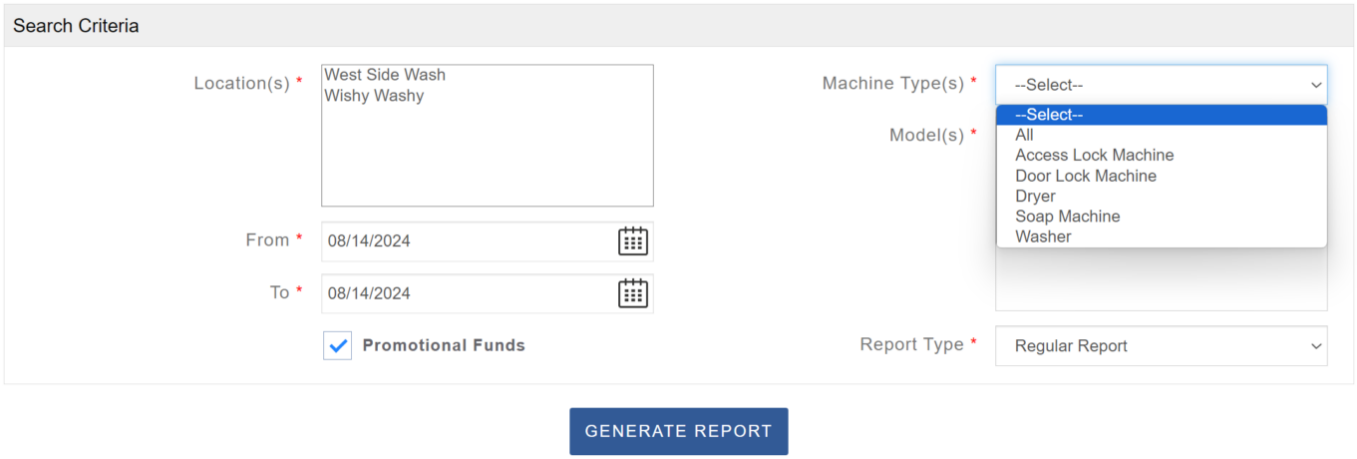

This page allows you to view your **Gross Revenue** in a clear and simple format. You can adjust the search criteria to meet your specific needs, and some reporting pages offer the option to receive **automatic emailed reports**. After entering your criteria, click **Generate Report** to display the report in a pop-up window. If the report does not appear, you may need to disable your browser's pop-up blocker for this site.

Example of the Revenue By Location page

Revenue By Machine Type

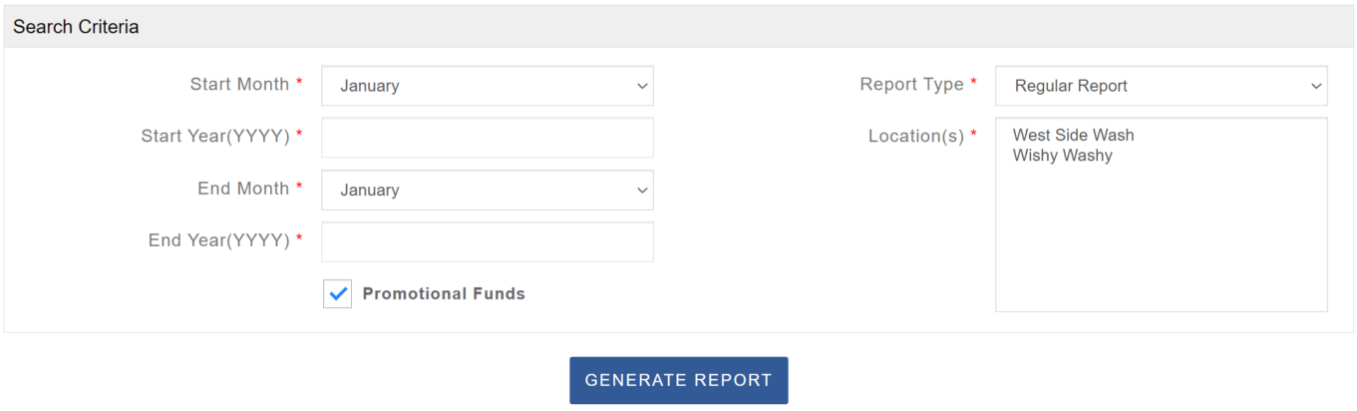

Break down revenue by machine type to see which equipment generates the most income and better understand customer usage patterns.

Example of the Revenue By Machine Type page

Revenue By Month of Year

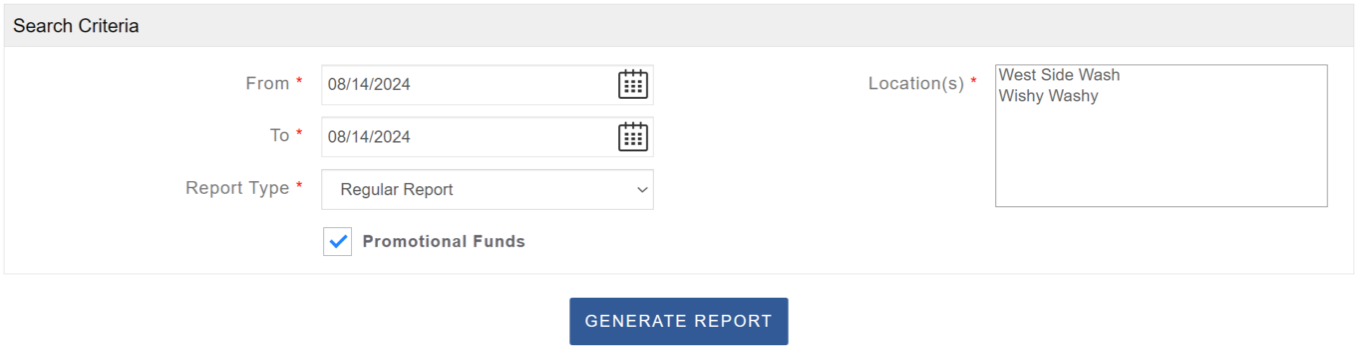

Review revenue trends by month to identify seasonal patterns and track year-over-year performance.

Example of Revenue By Month of Year page

Revenue By Day of Week

Analyze income by day of the week to uncover customer habits and improve operational planning.

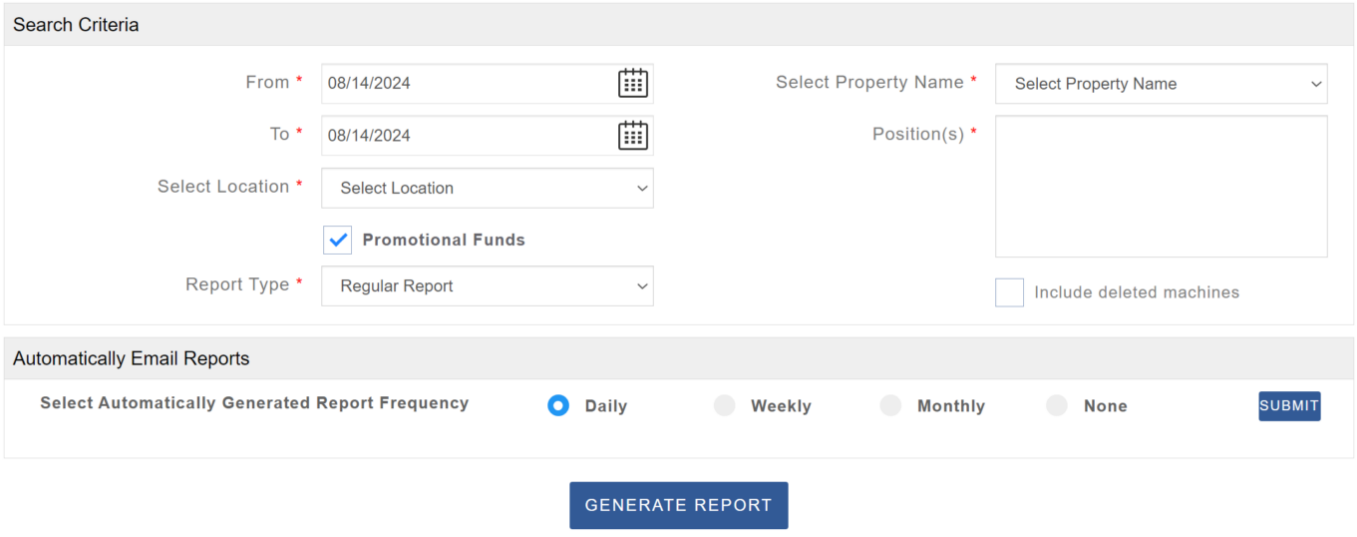

Example of the Revenue By Day of Week page

Revenue By Position

View revenue for each individual machine to monitor performance and detect underutilization. To access the Revenue By Position report, click the **Reports** tab and select **Revenue By Position**.

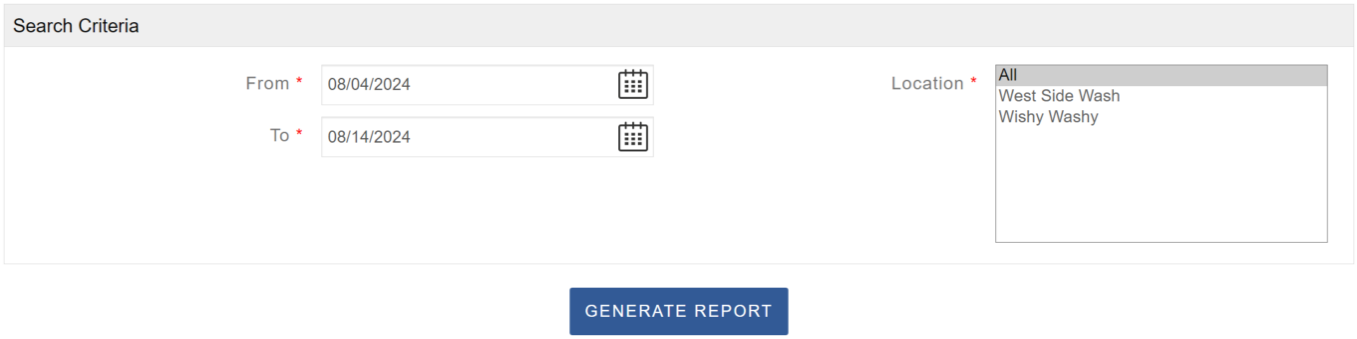

Enable Automatic Email Reports to receive reports directly in your inbox, keeping you up to date without requiring you to log in to the Operator Portal.

Example of the Revenue By Position page

Revenue By Promotional Fund

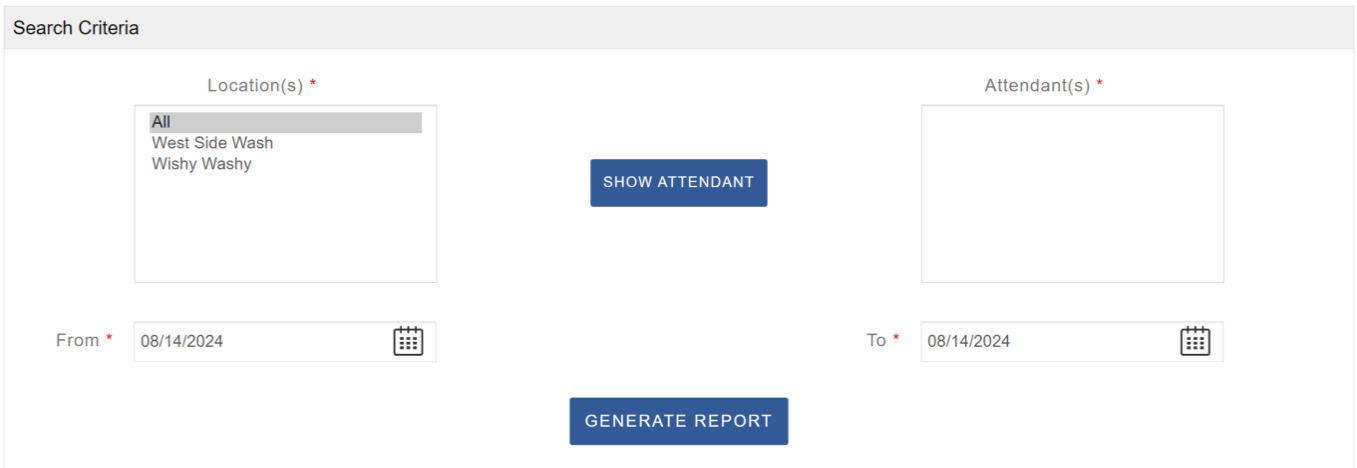

Use the Revenue By Promotional Fund Report to measure promotional fund usage and loyalty program engagement.

Example of the Revenue By Promotional Fund page

Attendant Detail Report

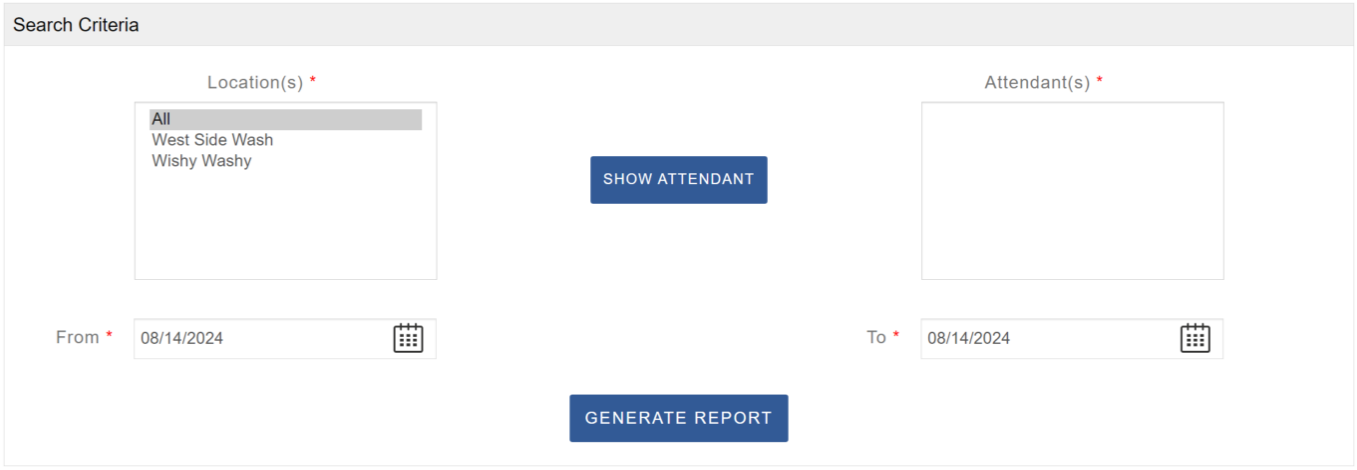

View a detailed breakdown of all transactions performed by a specific attendant, including Loyalty Card reloads and refunds.

Example of the Attendant Detail Report page

Attendant Simple Report

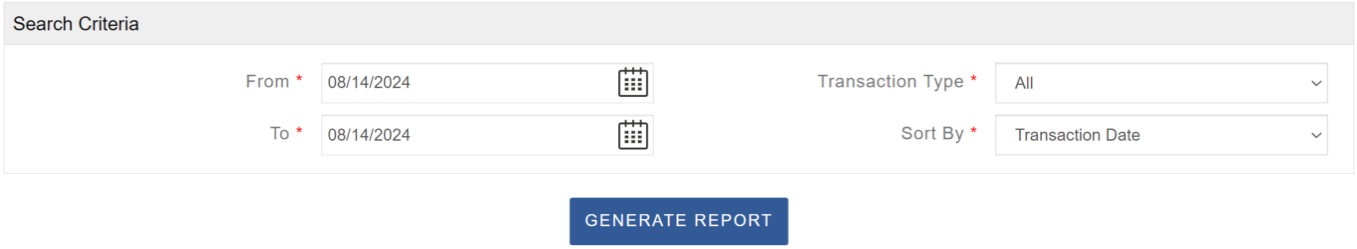

The Attendant Simple Report provides an overview of all transactions performed by a specific attendant, grouped by payment method.

Example of the Attendant Simple Report page

Gateway Transactions

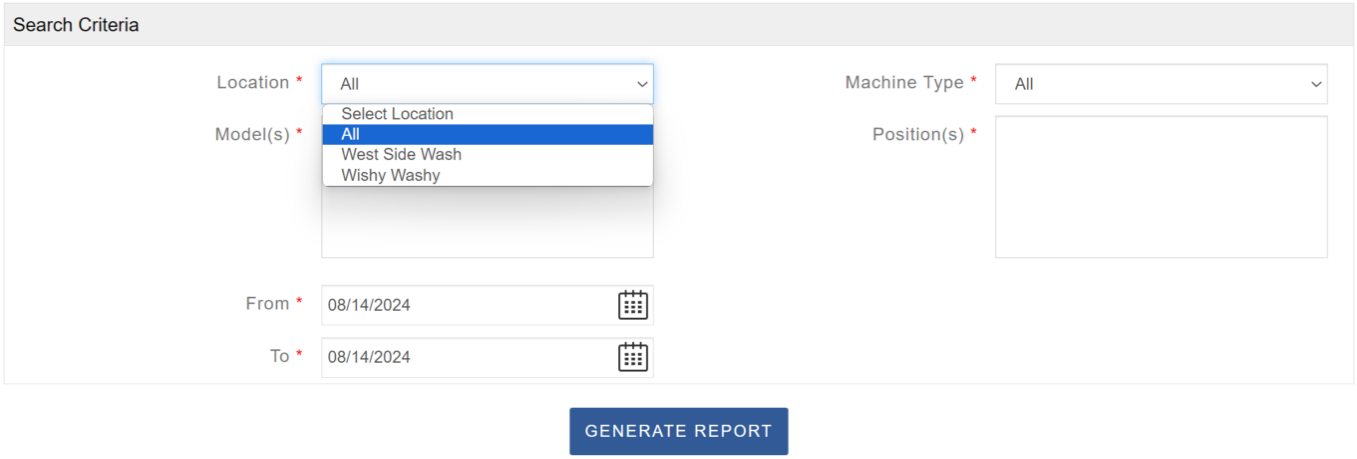

The Gateway Transaction report will detail Loyalty Card reloads and refunds. To access this report, click the Reports tab and select Gateway Transactions.

Example of the Gateway Transactions page

View Clear Total History

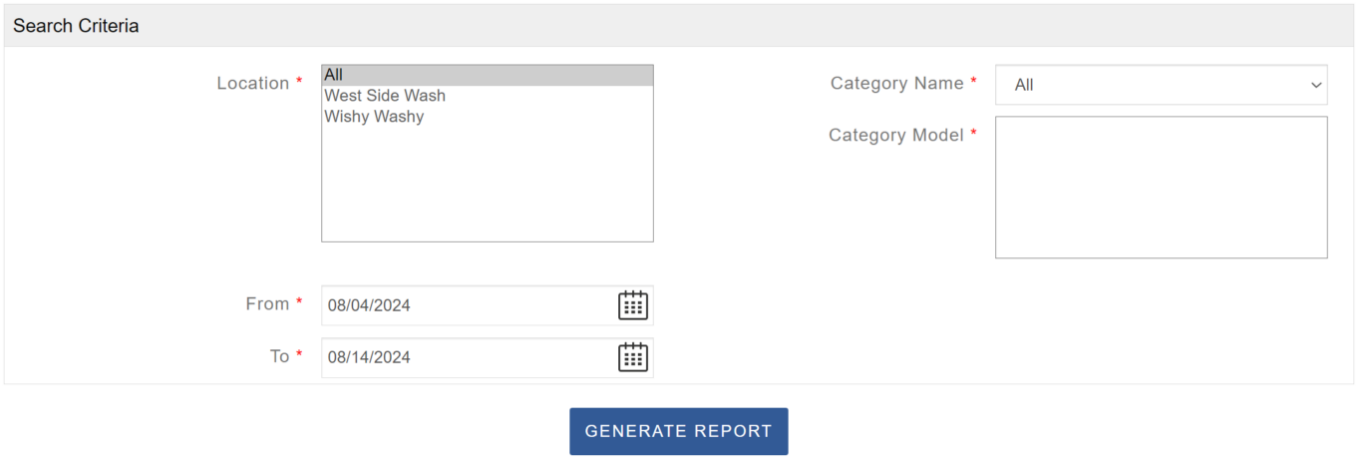

Review the dates and amounts for machines that have had their totals cleared.

Example of the View Clear Total History page

Free Wash Report

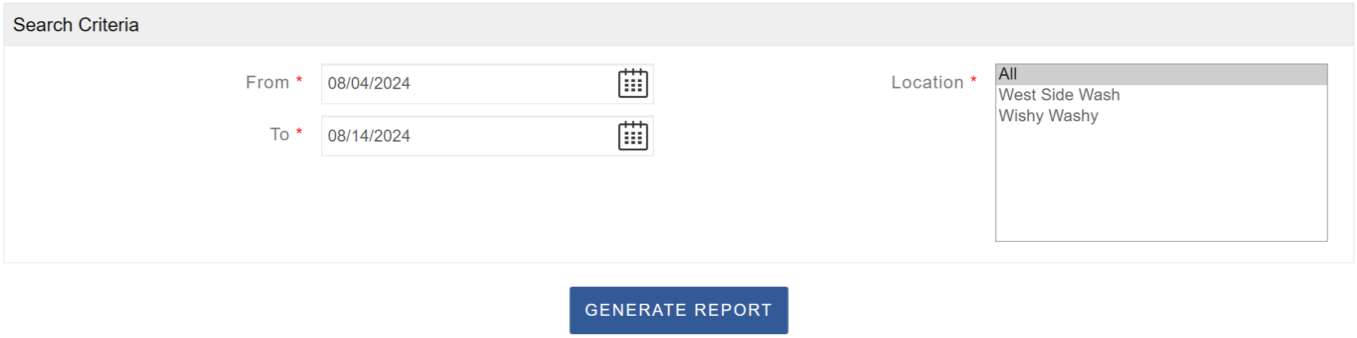

Review all free wash transactions to measure promotional activity and customer engagement.

Example of the Free Wash Report page

Free Dry Report

Track all free dry transactions to monitor customer participation in promotions.
